

LOCAL HOLIDAY SHOPPING GUIDE

#SHOPCBRM

REASONS TO SHOP LOCAL THIS HOLIDAY SEASON!

1) Stimulating the Local Business Economy

When you make a purchase from a local business, that business owner will often make purchases locally. A locally owned business will typically purchase goods and services from other local businesses.

2) Support for the Community

Local businesses often donate to charities, but they also sponsor local teams and they advertise in local publications and at area events.

3) Add to Cultural Diversity

When you shop locally, the business owner has the option of tailoring his or her product line toward any demographic they choose, and they often have the flexibility to source custom products for their customers quickly and easily.

4) Continually Building Community

When you personally know the merchant from whom you make a purchase you have a connection to that person. Connections to your neighbours make for community, and feeling connected to their community makes people feel good about their lives in general.

5) More Local Investment

When you shop locally you make an investment in your community. That is because local businesses are involved in the community both culturally and financially. Local business people are likely to be involved in local organizations and events, politics and are often property owners.

A promotional poster for 360 Photo Booth Rental. The background is dark with a golden bokeh light effect. On the left, a black 360-degree camera arm with a ring light is shown. On the right, a circular inset photo shows a couple in formal wear dancing. The text is centered and uses a mix of bold sans-serif and elegant script fonts. Pricing is listed in three horizontal bars: a yellow bar for 2 hours, a dark blue bar for 3 hours, and a white bar for additional hours. A list of occasions is on the right, and contact information is at the bottom.
